A Dutch abortion boat sailed to Central America again this week to skirt pro-life laws by offering abortions on international waters.

The boat, run by the pro-abortion group Women on Waves, was scheduled to arrive in Guatemala on Thursday to offer abortion drugs to women and girls, Medical Xpress reports.

Like many Central and South American countries, Guatemala protects unborn babies' lives and bans abortions. Exceptions are allowed when the mother's life is at risk.

The pro-abortion group said it plans to sail the boat to Puerto San Jose and stay there for five days to offer abortion drugs to women in the country.

"The ship can provide women with free legal medical abortions till 10 weeks of pregnancy after sailing to international waters, 12 miles outside Guatemala," the pro-abortion group said in a statement.

The group said it will provide safe abortions so women will not have to seek out unsafe back alley or do-it-yourself methods. It claimed 21,600 women are hospitalized with complications every year in Guatemala because of unsafe abortions; however, it did not cite the sources of this statistic. Abortion groups have a reputation for exaggerating the number of unsafe abortions in areas where abortions are illegal.

60 Million killings since ROE v. Wade was CREATED by the Black Robed illiterates. I personally abhor abortions but the final arbiter has yet to act, to the best of our knowledge, and Judging is a smidgen above my pay grade. As long as the murders are not funded by the \$\$\$\$ coerced from my bank account I'll let a Higher Power decide.
